Online Default Access Rules in Exchange 2010 In Exchange 2010, the Default Access Rule applies to all outbound messages except for ones that are marked as "Speech to Web" or "Voice Mail to Name" and the Inbound rules can be used to manage incoming mail. The Different Types of Roles and Access Rules in Exchange We talked about the two types of roles in Exchange: device and mailbox. We've also talked about the way that users can have access to devices and mailboxes. We'll talk now about a third type of role in Exchange: a role that isn't a device or a mailbox. The Different Types of Roles in Exchange We talked about the three types of roles in Exchange: device roles, mailbox roles, and user roles. We've also talked about the way that users can have access to devices and mailboxes. We'll talk now about a fourth type of role in Exchange: a role that isn't a device or a mailbox. Exchange 2010 and Security The content in this article applies to Exchange 2010, but the principles that I'm talking about still apply. For most people, Exchange 2010 and Exchange 2007 are similar. They have the same features, and they both have the same security. How to Set Up an e-Mail Account in Exchange 2010 In Exchange 2010, you can manage e-mail accounts by using the Exchange Management Console.
